

Checking Your Telus CSIONet SSL VPN Connection

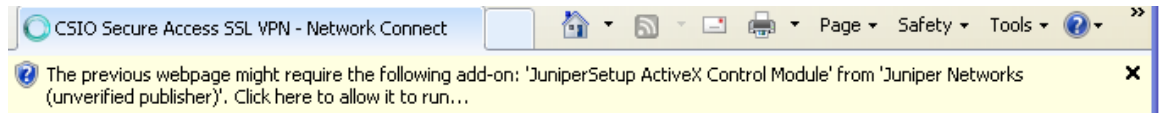

1. In Internet Explorer, type in the following address: <https://csionet.com>

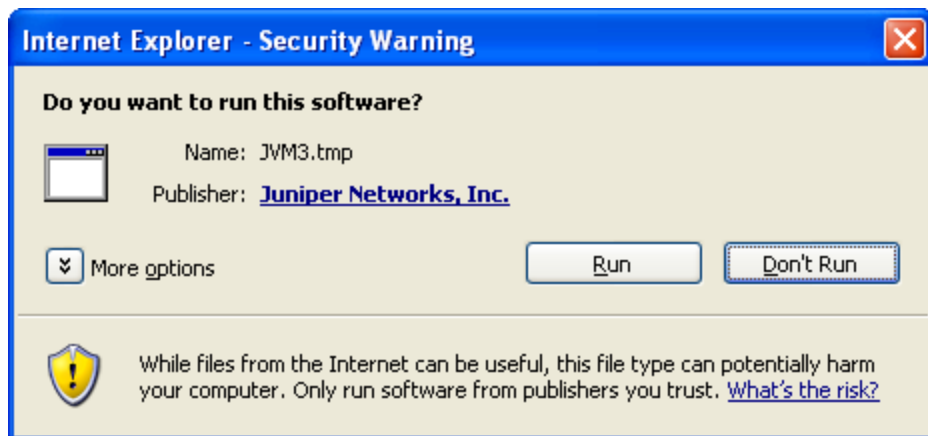

2. Type in your username and password and click the “Sign In” button.

3. If this is the first time you have accessed CSIONet on this PC you will see

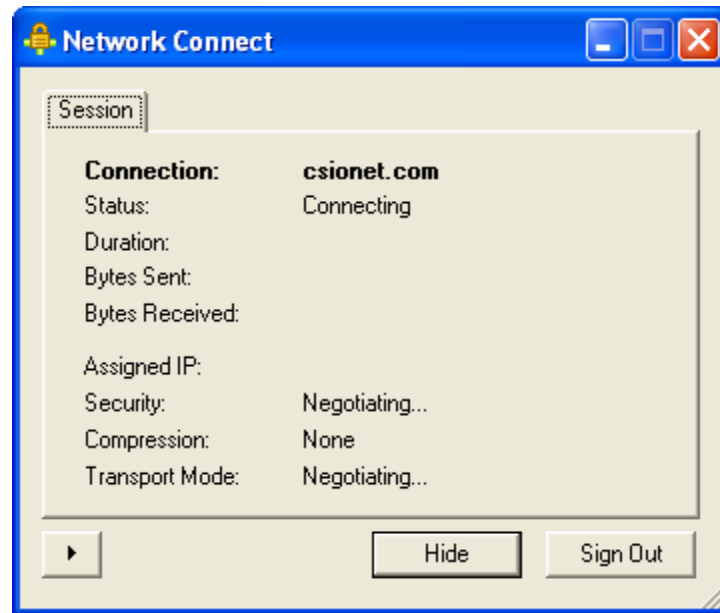

Click the RUN button to install the Juniper Networks “Network Connect” module.

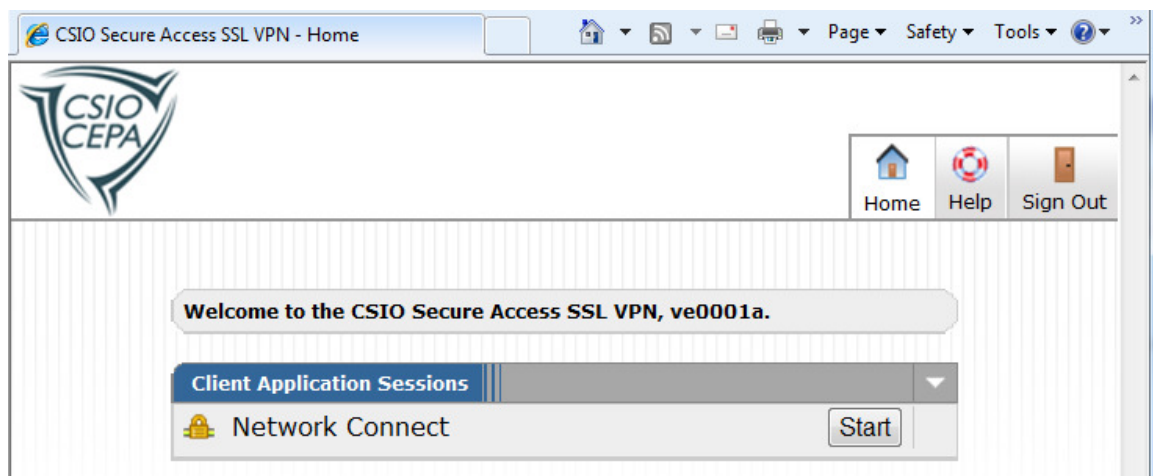

To check that the Juniper Networks software has been installed click, start, Control Panel, Add or Remove Programs and you should see the following two entries in the list of the “Currently installed programs:”

 Juniper Networks Network Connect 6.1.0	Size	2.95MB
 Juniper Networks Secure Application Manager	Size	2.11MB

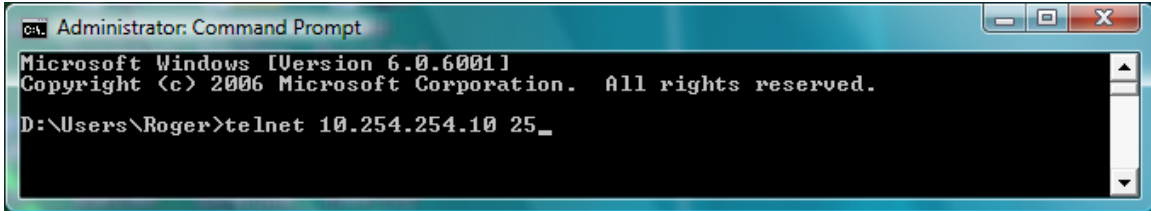

3. When the secure VPN Tunnel is being created you will see this dialog box:

4. When the secure VPN Tunnel has been created you will see the following screen. There is no need to click the “Start” button as Network Connect has been started.

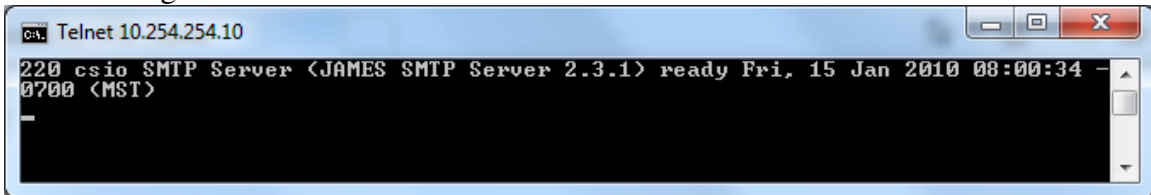

- 5) Go the command prompt by clicking Start > Programs > Accessories > Command Prompt and type **telnet 10.254.254.10 25** to check the connection to the Telus SMTP server.

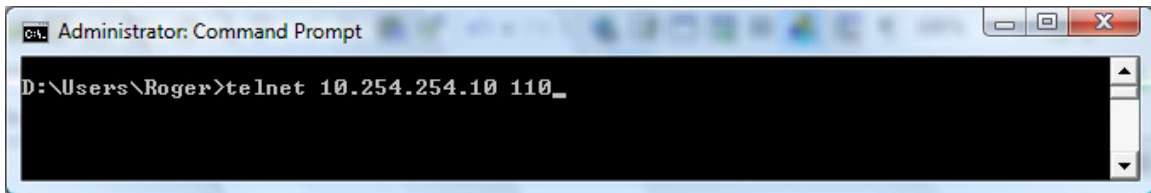

```
Administrator: Command Prompt
Microsoft Windows [Version 6.0.6001]
Copyright (c) 2006 Microsoft Corporation. All rights reserved.
D:\Users\Roger>telnet 10.254.254.10 25_
```
