

ES0001 eSlip Branding and Populating eSlip Fields

You brand and customize your eSlip and eDelivery e-mail templates by signing in to the Proof of Insurance portal (<https://admin.myproofofinsurance.ca>).

To obtain an eDelivery account please register at: <https://www.csio.com/edelivery/request-account>.
Inquiries should be directed to edelivery@csio.com.

eSlips are stored in the Smartphone's Wallet. For an Android phone go the Google "Play Store" and download and install e.g. "Pass2U"

eSlips are added to a Wallet with eSlip emails from "My Proof of Insurance / Ma preuve d'assurance noreply@myproofofinsurance.ca". The following shows a MASTERCOM branded email.

CSIO's Proof of Insurance portal (<https://admin.myproofofinsurance.net>) allows you to brand the eSlip email. The insurance company's logo is always shown in the upper left-hand corner and the broker's logo in the upper right-hand corner. In place of MASTERCOM's slogan of "Helping companies to do business electronically", you would specify your brokerage's slogan and in place of the cell phone graphic you would specify a graphic.

*Please contact the CSIO Help Desk for help in the tailoring your eSlip email.
Also see <https://www.myproofofinsurance.ca/>*

Brokerage Details

For MASTERCOM, you must specify your broker details by editing the **BrokerDetailsFile.doc** file found in the “\EMAIL\EDELIVERYSERVICES\REMARKSINFO\BrokerDetails” folder and then saving it as “Plain Text” file. CSIO requires the **BrokerDetailsFile.txt** to be plain text.

As illustrated below, the Brokerage details displays in the **Brokerage** space on the eSlip.
