

Fast Install Steps

Install Steps

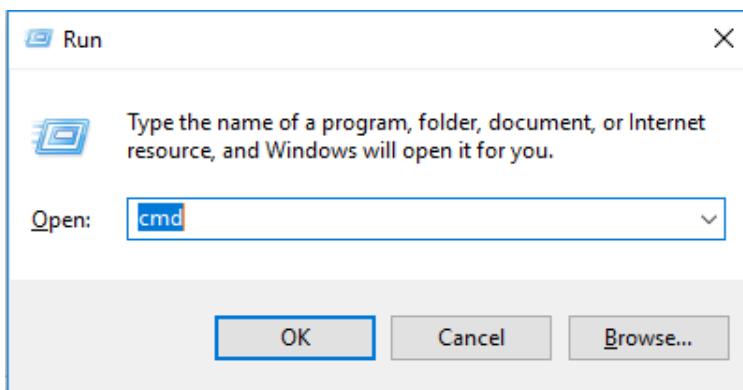

- 1) Go to the user's Workstation that will run the upload/download communications.
- 2) Download **setup.exe** from MASTERCOM's web site and save it in your **\Downloads** folder so you can unblock it. To unblock, right-click it and on the General Tab click the **Unblock** and **Apply** buttons. This should help in avoiding "Open File – Security Warnings when programs are executed.

- 3) Move **setup.exe** from your **\Downloads** folder to the Power Broker mapped drive where the folder **\BRO** resides, as illustrated below. In this case the mapped drive is R.

- 3) Go to the command prompt by holding the Windows Key down and type "R" and in the "Run" dialog box, as shown below, type "**cmd**" and click the **OK** button.

- 4) At the command prompt, type your mapped drive letter, colon and press the <Enter> key e.g. **R:<Enter>**, as shown below, to switch to the R: drive.

Fast Install Steps

```
C:\WINDOWS\system32\cmd.exe
Microsoft Windows [Version 10.0.15063]
(c) 2017 Microsoft Corporation. All rights reserved.

C:\Users\Roger>R:
```

5) At the command prompt, as shown below, type e.g. **setup.exe<Enter>**”

R: \setup.exe<Enter>” to initiate the “InstallShield” installation “Wizard”.

If setup.exe is not started up on the Power Broker mapped drive, you will the following display to do so.

Fast Install Steps

The **Destination Folder** should show that you are installing the software in the \EMAIL folder on the mapped drive e.g. **R:**\ where the \BRO folder is located.

Click **Install** to continue.

Fast Install Steps

When the installation wizard is completed, you will get the “**InstallShield Wizard Completed**” display, as shown below.

Click the “**Finish**” button to complete the installation of the BrokerED/PC E-Mail/EDI Engine and to install the 7-Zip software used to backup the communications session’s download.

After the “Finish” button is clicked you will get the following dialog box.

The “7-Zip 16.04 (x64) Setup” defaults to installing in the “C:\\Program Files\\7-Zip” folder.

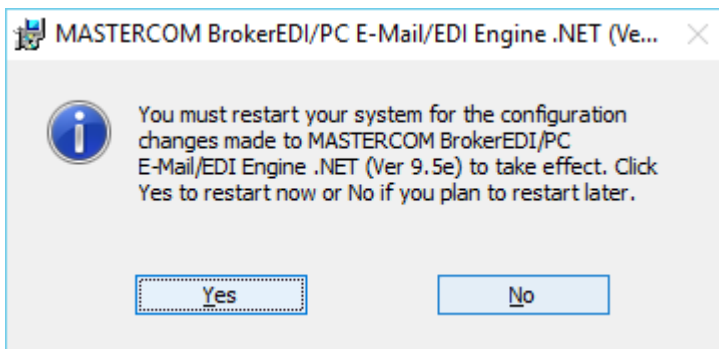

Fast Install Steps

Click the Browse button or type in the UNC path, as illustrated below to the ...\\EMAIL\7-Zip folder.

After the 7-Zip software is installed you will get the prompt to restart the computer,

Click the “Yes” button to restart.

Fast Install Steps

- 6) The installation includes the following “**MASTERCOM BrokerEDIPC E-Mail-EDI Engine .NET**” program folder.

Fast Install Steps

Setting Up Other PC's to do the Upload/Download Communications

To setup another PC in the office to do the upload/download communications, explore to the \EMAIL folder and run **setuppc.exe**.

- 1) At a PC explore to the \EMAIL directory and double-click **Setuppc.exe** to start the installation, as shown below. Setuppc.exe installs the same shortcuts, as shown in step 6 above, to programs in the \EMAIL folder on the server.

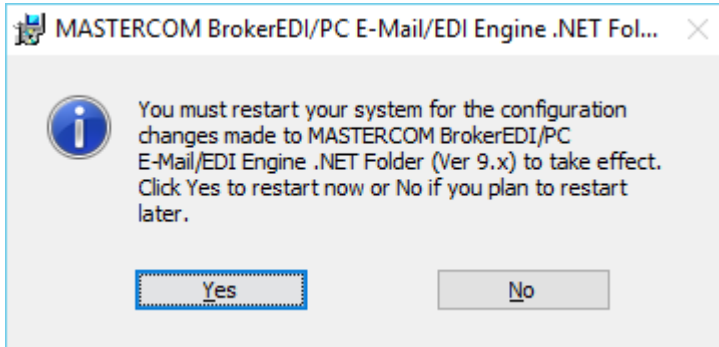

Click the **Next >** button to continue.

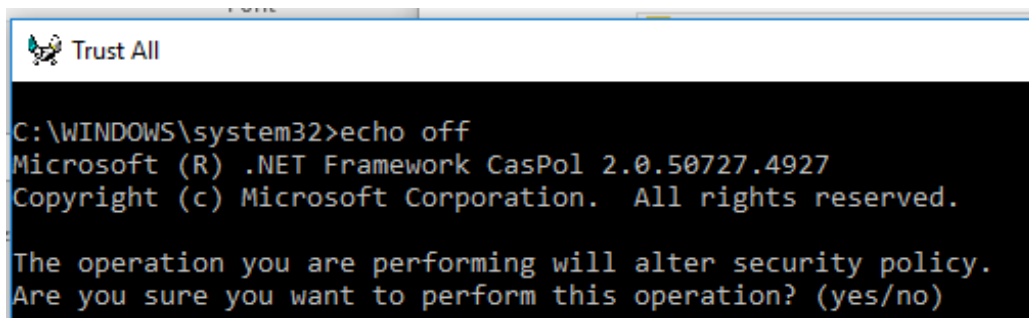

- 2) Click the **Finish** button to finish the installation and you will then be prompted to restart the computer.

Fast Install Steps

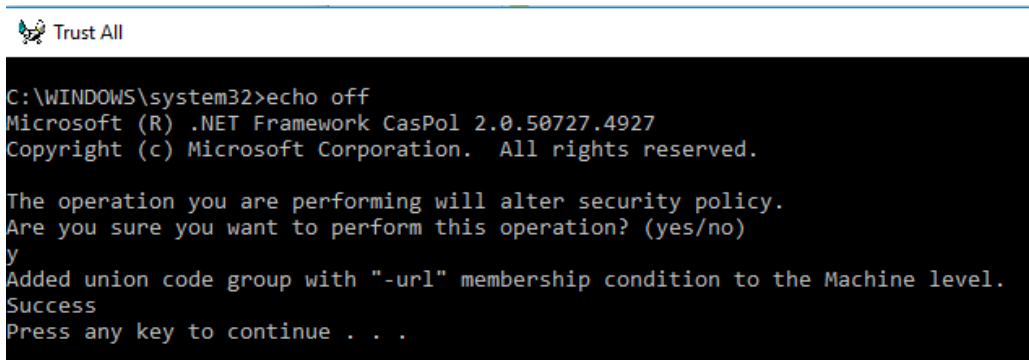

3) Click the “**Yes**” button to restart.

4) As in step 7 above, in the ““**MASTERCOM BrokerEDIPC E-Mail-EDI Engine .NET**” program folder right click the “**Trust All** “ program-item and “**Run as administrator**”.

When prompted type “Y <Enter>”

Press any key to finish
