

HD0011 Wrong Settings in “Settings – Outgoing Mail Server”

This error indicates that error/alert emails cannot be emailed to the Administrators as there are incorrect settings in “**Settings – Outgoing Mail Server**”.

Click, **Start, All Programs, “MASTERCOM Brokered E-Mail-EDI Engine .NET”, “Settings - Outgoing Mail Server”** program-item and correct the setting that is wrong.

Please refer to e.g. “HD0004 Settings for Office 365, Google Gmail & Bell Sympatico.pdf”

The values specified are used by the MASTERCOM Brokered/PC E-Mail/EDI Engine .NET to send system/error messages to the system administrator(s) specified in the “**Settings – System**” dialog.
